Image Specialists Boosts Its Portfolio of Transport Clips for Cartridge Refilling

Holtsville, NY—Image Specialists, Inc. has raised the profile of its cartridge refilling accessories by adding to the list of transport clips required for ensuring protective shipment of refilled cartridges

The company now offers seven types of clips to accommodate hundreds of cartridges from the leading OEMs: Brother, Canon, Dell, Hewlett Packard, Lexmark, Xerox, and even the Pitney Bowes 769-0 cartridge. Minimum orders are held at 100 pieces, and there are 400 clips to a case.

With this enhancement of its line of transport clips, Image Specialists is fulfilling a recent initiative of supplementing its vast catalog of desktop and wide format inks—water-based, pigment, and solvent—with superior products for the productivity and convenience of its many cartridge refilling customers. These include cartridge seals and plugs, chip resetters, print head tapes, cap openers, anti-static bags and even ultrasonic cleaning equipment.

For its full suite of transport clips, including compatibility lists, please visit http://www.image-specialists.com/transport_clips.aspx or call Image Specialists at (631)475-9600 for more information.
